

LEGISLATIVE ALERT

Stand up for taxpayers in Iowa- Reject HF 2645!

As early as this afternoon, you will be asked to consider House File 2645, an underhanded push by big labor to take control of education out of the hands of capable teachers and responsible parents- and into the hands of labor union interest groups.

Perhaps even more onerous, this bill could slap Iowa taxpayers with a higher property tax burden if passed.

House Democrats have cleverly slipped language into the bill that strips local elected officials of the ability to control local property tax levels. Under HF 2645, an unnamed and unelected official will be given the opportunity to raise local property tax rates and spending without approval from elected officials, or even more importantly- Iowa taxpayers who are footing the bill.

With taxpayer dollars on the line, you must ask yourself: who will be steering the ship?

As a watchdog for taxpayer dollars, it is up to you to reject this cloak-and-dagger bill and protect the best interests of hard-working families in Iowa.

Reject union control of education. Reject the possibility of tax hikes on auto-pilot.

Don't let unions kick taxpayers to the curb-

REJECT HF 2645!
