Obamacare Plan Is a Net Tax Hike of \$629 Billion

Many of the Tax Hikes Fall on Families Making Less Than \$250,000

WASHINGTON, D.C.— Today, the White House released [President Obama's draft healthcare plan](#). Below is a comprehensive analysis of all the tax provisions. Where possible, scores have been assigned based on earlier versions of the legislation passed by the [Senate](#), the [President's budget](#), and (in the case of applying the Medicare tax to unearned income) ATR staff estimates based on IRS data (all scores are 10-year estimates):

***** Overall proposal is a net tax hike of \$629 billion over 10 years *****

Title I (Net tax hike of \$85 billion)

- *Same individual credit as Senate bill (-\$102 billion)*
- *Same small business credit as Senate bill (-\$38 billion)*
- *Reinsurance program (\$121 billion)*
- *Individual and employer insurance mandate penalties (\$43 billion)*
- *Associated effects on coverage provisions (\$61 billion)*

Title IX (Net tax hike of \$544 billion)

- *Corporate 1099-MISC information reporting (\$17 billion):* Requires businesses to send 1099-MISC information tax forms to corporations (currently limited to individuals), a huge compliance burden for small employers
- *Black liquor credit repeal (\$24 billion):* This is an excise tax hike which is contained in the President's budget
- *Economic substance doctrine (\$4 billion):* This would require taxpayers to prove to the IRS that a perfectly-legal tax deduction or strategy is "economically substantial," and not simply a way to pay less in taxes
- *Medicare payroll tax hike (\$87 billion):* Increases Medicare payroll tax rate from 2.9 percent to 3.8 percent on wages and self-employment income which exceeds \$200,000 (\$250,000 married)
- *Apply Medicare tax to unearned income (\$150 billion):* Would apply this new, higher Medicare tax rate to unearned income (interest, dividends, rent, royalties, and passive investment in pass-throughs like S-corporations and partnerships--capital gains not mentioned)
- *Cadillac plan excise tax (\$125 billion):* 40 percent excise tax on health insurance plans to the extent they exceed \$27,500 in cost for family plans, and \$10,200 for single plans
- *Innovator medicine company tax (\$22 billion):* \$2.3 billion annual tax on the industry imposed relative to share of sales made that year

- *Medical device manufacturer tax (\$19 billion):* \$2 billion annual tax on the industry imposed relative to shares of sales made that year. Exempts items retailing for <\$100. Rises to \$3 billion annually in 2017
- *Health insurance company tax (\$60 billion):* \$10 billion annual tax on the industry imposed relative to health insurance premiums collected that year. Phases in gradually until 2017. Fully-imposed on firms with \$50 million in profits
- *Tanning tax (\$3 billion):* New 10% excise tax on indoor tanning salons
- *Increase HSA distribution penalty by 10 percentage points (\$1 billion):* Increases additional tax on non-medical early withdrawals from an HSA from 10 to 20 percent, disadvantaging them relative to IRAs and other tax-advantaged accounts, which remain at 10 percent.
- *\$2500 FSA cap a.k.a. special needs kiddie tax (\$13 billion):* Imposes cap on FSAs of \$2500 (now unlimited). Indexed to inflation after 2011
- *Employer-provided retiree Rx deduction repeal (\$5 billion)*
- *Medical itemized deduction "haircut" raised from 7.5 to 10 percent of AGI (\$15 billion)*
- *\$500,000 executive compensation limit for health insurance companies (\$1 billion)*
- *Miscellaneous tax relief (-\$2 billion)*

Interestingly, the draft release from the White House seemingly lacks the following tax hikes which were contained in the Senate bill:

- *Employer reporting of insurance costs on W-2 (no revenue effect)*
- *Excise tax on charitable hospitals (no revenue effect)*
- *Blue Cross/Blue Shield tax hike (\$400 million)*
- *"Medicine cabinet tax" (limiting the purchase of non-Rx, over-the-counter medicines from HSAs, FSAs, and HRAs, \$5 billion)*

Americans for Tax Reform is a non-partisan coalition of taxpayers and taxpayer groups who oppose all tax increases. For more information or to arrange an interview please contact John Kartch at (202) 785-0266 or by email at jkartch@atr.org.
