

Tonight at 8:00 PM Eastern Time, President Obama will address a joint session of Congress. Below is a handy Bingo card you may use to check off terms and phrases likely to be used. As a bonus, print out the different versions of the card and watch the speech with your friends or family:

O	B	A	M	A
"Public option"	"Change"	"Keep insurance companies honest"	"Quality health insurance"	"Status quo"
"Medical malpractice reform"	"46 million uninsured"	"Investment"	"Naysayers" or "Fear-mongers"	"Well-financed forces"
"Children and grandchildren"	"Deficit-neutral"	GOVERNMENT SUBSIDIZED "FREE" SPACE	"The cost of doing nothing"	"Crisis"
"As I've said before"	"Bipartisan"	"Waste, fraud, and abuse"	"Bend the cost curve"	"Create choice and competition"
Invocation of FDR, Truman, Nixon, or Ted Kennedy	"Let me be clear"	"Washington special interests"	"Hope"	"Doctors and Nurses"

KEY:

"Public option" – A government-run health plan

"Crisis" -- Excuse to hike taxes and grow the government per Rahm Emmanuel's theory: "Never waste a crisis"

"Hope" – The medicine Obama will prescribe while you're on a government waiting list

"Change" – Take-home pay of future generations due to massive spending increases and government expansion

"Bipartisan" – Tricking one gullible Republican into voting for a government-controlled health plan

"Children and grandchildren" – The people picking up the tab

"Investment" – The government spending your tax dollars

"As I've said before" – Prepare for a poll-tested line from stump speeches

"Deficit-neutral" – Raising taxes at least as much as you raise spending

"Quality health insurance" – A benefits package designed by unelected federal bureaucrats

"46 million uninsured" – Inflated number which includes illegal immigrants, those eligible for but not enrolled in existing government programs, and those who turn down insurance they can afford

"Waste, fraud, and abuse" – Magic asterisk when a politician needs a pay-for

"Well-financed forces" – K Street health industry lobbyists in bed with Obamacare

"Washington special interests" – K Street lobbyists President Obama likes to pretend are opposed to Obamacare but actually support it

"Status quo" – Government already controls half of the U.S. healthcare sector; Obamacare wants to take over the other half

"The cost of doing nothing" – Trillions less than Obama's plan

"Let me be clear" – Prepare yourself for meaningless truism

"Naysayers" or "fear-mongers" – Any person legitimately concerned about the rapid encroachment of government in their life

"Create choice and competition" – Driving out private sector health insurance by rigging any competition in the government's favor

"Keep insurance companies honest" – see "create choice and competition" above

"Bend the cost curve" – The government rationing your healthcare

"Medical malpractice reform" – Something Obama, Reid, and Pelosi will never actually do since they are in the pocket of trial lawyers

"Doctors and Nurses" – Healthcare professionals who will be drafted into government employment when Obamacare eventually turns into a single-payer system
