

Do I look like a Cash Cow to you?

My mommy and daddy say some people want to tax my milk money. Don't they know that milk is good for us kids? It helps build strong bones and healthy bodies. My mommy says more than 50% of milk goes to kids, just like me. And she says families in Arkansas right now are having a hard time and can't afford another tax. They said no to the grocery tax, so why do they want to tax our milk?

Mr. Governor, kids are not cash cows.
Please don't let them tax our milk money.
